

EDUCATION

- Delhi Technological University**
Bachelor of Technology in Computer Science and Engineering
- New Delhi, India
Aug 2024 – May 2028

PROJECTS

- NodeFace: Visual Workflow Automation:** Built a drag-and-drop workflow automation platform with real-time node execution similar to n8n from scratch.
- Toolss: A online web directory:** Built and curated an AI tools discovery platform featuring categorized listings, modern UI, and fast search using TypeScript.
- Capy: Context for AI UI Building:** Built an AI context engine that extracts UI patterns and project structure to improve coding-agent code generation.
- ClaudeFM:** Built an npm CLI for streaming Claude’s live lofi broadcast directly in the terminal, achieving 2,000+ installs.

PROFESSIONAL EXPERIENCE

- Full Stack Intern**
Software Engineering
- Sodhani Capital
May 2026 – July 2026

 - Building a stock trading and portfolio management platform from scratch using modern full-stack technologies
 - Developing frontend interfaces, backend APIs, database architecture, and real-time financial data integrations
- Frontend Developer**
Product Engineering
- Maximally
Mar 2026 – Apr 2026

 - Developed frontend features using **React**, **Next.js**, and **TypeScript**
 - Improved user experience by optimizing performance and refining core UI components
- Full Stack Developer**
Web Application Development
- Otter
Oct 2025 – Apr 2026

 - Built scalable web applications using **React**, **Node.js**, and **PostgreSQL**
 - Implemented **AI-based features** to improve automation, personalization, and data insights
- Software Engineer Intern**
Full-Stack Mobile Development
- Stealth Startup
Apr 2025 – May 2025

 - Developed a mobile application end-to-end, including database design, API integration, and deployment
 - Built backend services and REST APIs for reliable and efficient data handling
- ACHIEVEMENTS
- Entrepreneurial Experience** – Earned freelance income by developing AI-based solutions while balancing full-time academics
 - Industry Recognition** – Approached by an AI company to participate in paid testing and evaluation of frontier coding models
 - YC Startup School India** – Selected for Y Combinator’s India cohort, a competitive program for early-stage entrepreneurs
- NOTABLE COURSES
- CS50’s Introduction to Artificial Intelligence with Python (Harvard University)**
 - Kaggle Learn: Data Analysis and Machine Learning Fundamentals**
- PROGRAMMING SKILLS
- Languages:** Python, JavaScript, TypeScript, SQL, HTML, CSS
 - AI/ML:** Large Language Models, RAG Systems, FAISS, Pandas, NumPy
 - Frameworks & Tools:** React, Next.js, Express.js, Firebase, REST APIs, Git, Prisma, Drizzle, Sentry
 - Platforms:** Vercel, GitHub, Firebase, ngrok
